

Biography

Ian van Duijvenboode

Global Segment Director, e-Mobility
Ascend Performance Materials
Detroit, Michigan

Ian van Duijvenboode is the global segment director for the e-mobility business at Ascend Performance Materials. In his role, Mr. van Duijvenboode is responsible for profitable growth through focus on new innovative product development as well as expanding into new application areas.

Mr. van Duijvenboode has more than 25 years of international automotive experience and has held positions in engineering, quality, manufacturing, sales, program management and marketing.

He started his career with Ford Motor Company in the U.K. before becoming part of Visteon Corporation with the focus on driving growth with Jaguar Land Rover. In 2004, Mr. van Duijvenboode moved to Sweden to develop Visteon's account with Volvo Cars before joining Kongsberg Automotive to run driveline sales and marketing.

Mr. van Duijvenboode joined Ascend Performance Materials in July 2017 and holds a bachelor's degree in mechanical engineering from Southampton University, England.
